

Minder’s Q series is manufactured using one-piece blow-moulded technology. Low pressure operation means it is more affordable to everyone.

### Operating Limits

Maximum water temperature	43 °C
Operating Pressure	1.0bar
Maximum Pressure	2.5bar

### Material

Tank: HDPE  
 MPV: ABS  
 Clamp: GF-PA66  
 Base: PP

### Specification

MODEL	CODE	MULTIPOINT VALVE UNION SIZE		TANK Ø	FILTRATION AREA	DESIGNED VELOCITY	MAX FLOW RATE		MEDIA BED DEPTH	SILICA SAND (kg)
		2.5bar	IMPERIAL	METRIC	mm		m <sup>2</sup>	m <sup>3</sup> /h	lpm	mm
Q21	72865			550	0.24	48	12	192	340	85
Q25	72866	1.5	50mm	650	0.33		16	270	400	155

Q series is approved by “Greener Production” scheme

Cleaner Production (CP) Scheme is an adoption of clean production technologies to reduce emissions and achieve greater energy efficiency.
